For Box Base: Use 1 sheet of 12" x 12" CS

Score CS on all sides at 3", leaving a 6" x 6" center square. Trim corners off diagonally, and clip at outside vertical score lines. Decorate box base as desired before assembly. When ready, glue or otherwise adhere corners to form box.

For Box Lid: Use 1 sheet 8 1/2" square CS, and one 5 1/2" square window sheet

Score CS on all sides in 1 1/8" (or at 7 3/8".) Trim corners off diagonally, and clip outside vertical lines, as in box base. If using a window, measure in 3/4" from score lines on all edges, marking the window square. Carefully cut out window. Flip over, and decorate lid as desired. Turn back face down, and outline window opening in Sticky Strip. Apply window sheet over window opening. Glue or otherwise adhere corners to assemble.

Divider Inserts: All CS to match box base, 1-6" x 11 1/2" and 2-3" x 11 1/2" pieces.

Decorate all strips as desired. Score along long edges at 2 7/8", 5 3/4" and 8 5/8" on all pieces. Fold in half, then fold up ends into "W" shape. Insert wider piece first, then arrange smaller pieces on either side to create 4 spaces.

Kit Contents: Roll out 12 curved cupcake wrapper shapes using the Perfect Settings Big Shot die. Use DSP, or CS and decorate as desired. Assemble wrappers and put two stacks of 6 in 2 box compartments. Using toothpicks and punches, create 12 cake picks and place 6 of each in the remaining compartments. Go crazy with the picks! Really, the sky's the limit. Add coordinating cake decorative sprinkles or sugar ornaments. Close up kit, and tie with wide ribbon. Add a tag and a card for the extra touches!
